REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the newly cited prior art of record fairly disclose or render obvious the claimed method of treating an organic wastewater containing an aminopolycarboxylic acid selected from the group consisting of EDTA, PDTA and DTPA, using the range of frequencies for the vibrating of the wastewater followed by the treatment of the wastewater with a microorganism.

As stated in the response, the declaration filed 8/31/06 shows the unexpected results obtained in the treatment of wastewater contaminated with the claimed aminopolycarboxylic acid using the electrolytic oxidation treatment with the vibration of the organic wastewater at a frequency of 10 cycles/sec to 100 cycles/sec.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
